## LEGACY HARBOUR

**MARINA**  
Fort Myers, Florida  
[www.legacyharbourmarina.com](http://www.legacyharbourmarina.com)

### Welcome

We had a great Fourth of July celebration at the marina. The City fireworks display and Riverfest were a huge success. Lake O continues to be filled by the summer rainfall. On June 3rd the Lake level was 3.48 feet. As of August 10th the Lake level was 5.10 feet. It is the first time the Number One Route has been that deep since March 2007. For an update on the Lake level go to the Army Corps of Engineers website:

[www.saj.usace.army.mil/h2o/reports/r-nav.txt](http://www.saj.usace.army.mil/h2o/reports/r-nav.txt)

**RSVP** If you are planning to spend the season with us, and you haven't received a telephone call to confirm your reservation, please call the marina office at 239.461.0775 or e-mail us at [info@marina33901.com](mailto:info@marina33901.com).

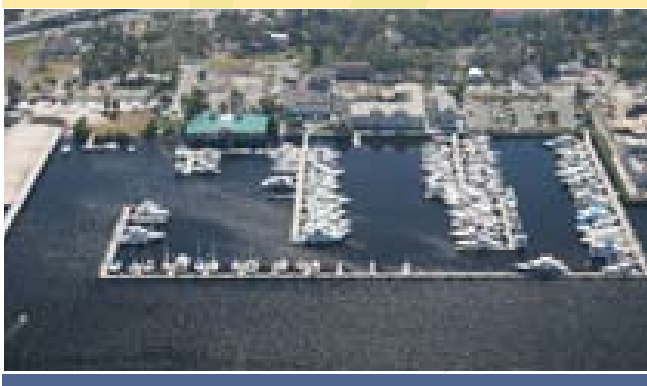

### Hurricane Season Reminder

This is a repeat, but it must be touched on during Hurricane season. Hurricane preparedness. You need to **BE PREPARED!** Every boater needs a plan! **PLAN AHEAD!**

1. Do not plan to ride out the storm on your boat.
2. Consider travel time if you are moving the boat.
3. Line up a boat captain ahead of time.
4. Leave your boat as if a hurricane were coming tomorrow. Inspect and double your lines.

**FORMULATE YOUR PLAN.** If you have any questions, call the marina office to discuss it.

### President Bush Signs Clean Boating Act Legislation

On July 29, 2008, aboard *Air Force One*, President Bush signed S. 2766, "The Clean Boating Act of 2008," which permanently restores a long-standing exemption for recreational boats from permitting requirements under the Clean Water Act. This signing of the bill is the capstone moment of a two-year campaign to eliminate an onerous permit program for recreational boaters that would have dictated maintenance and operation procedures, potentially subjected boaters to citizen lawsuits, and put recreational boats under a penalty system designed for industrial polluters.

Photo by BoatU.S.

President Bush

BoatU.S. has worked with the National Marine Manufacturers Association and a coalition of stakeholders as well as a bi-partisan group of House and Senate legislators. "However, the real success of this campaign rests squarely on the shoulders of this country's millions of recreational boaters and anglers," said BoatU.S. Vice President of Government Affairs Margaret Podlich. "Without their loud collective voice, we would not have reached this momentous event."

Legacy Harbour Marina would like to **thank all of the boaters** that sent e-mails to their congressmen and to President Bush to support this important campaign.

### New Work Boat

Legacy Harbour Marina purchased an center console 1973 22 foot Mako in July. The Mako will serve as the work boat for the marina.

## Farmer's Market

The Farmer's Market has moved back to its old home under the Rt. 41 bridge.

## Boaters' Having FUN!

## Bike Storage

There are quite a few unclaimed bikes in the bike rack on the west side of the Harbourmaster building. If you have a bike stored at the bike rack, please stop by or call the office and identify your bike. All unclaimed or unwanted bikes will be disposed of after November 1, 2008.

## Recipe of the Month

Robert "Dobbin" Anderson & Julia Corbin - "Mermaid"

### Clams Parmesan

2 servings angel hair pasta, 20 little neck clams (or 1 can - drained), 1/2 cup lemon juice or white wine, 1 teaspoon garlic, 2 tablespoons butter, 1/2 cup chopped fresh parsley, 1/2 cup shredded parmesan cheese.

Julia Corbin

Cook pasta according to package directions. Drain and place in serving bowl.

Meanwhile, melt butter in large skillet with lemon juice or wine.

Add garlic and clams. Sauté until clams open (5-8 minutes). Discard any clams that do not open.

Pour clams and sauce on pasta. Toss with parsley, parmesan. Salt and pepper to taste. Serves 2.

## AED Now On-Site!

Legacy Harbour Marina is now equipped with a Powerheart Automated External Defibrillator (AED). The AED is located in the marina

## Franklin Lock Fact:

The purpose of the bubbles in front of the lock gate is to stop salt water intrusion into the fresh water upstream. The air bubbles will roll the salt water back and because the two waters do not mix rapidly, the salt water intrusion is blocked.

"Tell them our 'real' boat is in the shop!"

## Boating Vocabulary

Swell - A wave that's just great.
